# Cylindrical Proximity Sensor **E2A3**

# High Quality for Extra Long Distance

- CENELEC triple-distance operation.
- Normally open (NO), and normally closed (NC) models are available.
- Stainless steel and brass housings.
- 360° angle indicators

# Connectivity

E2A3 Sensors are available with the following connectors and cable materials:

**Pre-wired Models** 

**Connector Models** 

Standard cable lengths are 2 m and 5 m. For other cable lengths, please contact your OMRON representative.

Standard cable material: PVC (4-mm dia.) -WP

Model Number Legend

2 3 4 5 6 7 8 9 10 11 12

Example: E2A3-M12KS06-M1-B1 Triple distance, M12, standard barrel, shielded, Sn = 6 mm, M12 connector, PNP-NO E2A3-S08KS03-WP-B1 2M Triple distance, M8 stainless steel, standard barrel, shielded, Sn = 3 mm, pre-wired PVC cable,

PNP-NO, cable length = 2 m

1. Basic name

E2A

2. Sensing technology

Blank: Standard double distance

Triple distance

3. Housing shape and material

Cylindrical, metric threaded, brass

Cylindrical, metric threaded, stainless steel

4. Housing size

08: 8 mm 12: 12 mm

18 18 mm

5. Barrel length

K: Standard length

Long body

6. Shield

S: Shielded N: Non-shielded

7. Sensing distance

Numeral: Sensing distance: e.g., 03 = 3 mm, 11 = 11 mm

8. Kind of connection

Pre-wired, PVC, 4-mm dia. M1: M12 connector (4-pin) \*

Standard connectors: M12, M8 (3-pin)

M8 connector (3-pin)

9. Power source and output

DC, 3-wire, PNP open collector

C: DC, 3-wire, NPN open collector

10. Operation mode

1: Normally open (NO) Normally closed (NC)

11. Specials (e.g., cable material, oscillating frequency)

12. Cable length

# Safety Precautions

### Precautions for Safe Use

### **∕!\ WARNING**

This product is not designed or rated for ensuring safety of persons.

Do not it for such purposes.

#### **Power Supply**

Do not impose an excessive voltage on the E2A3, otherwise it may be damaged. Do not impose AC current (100 to 240 VAC) on any DC Model, otherwise it may be damaged.

#### **Load Short-circuit**

Do not short-circuit the load, or the E2A3 may be damaged.

The E2A3's short-circuit protection function will be valid if the polarity of the supply voltage is correct and within the rated voltage range.

#### Wiring

Be sure to wire the E2A3 and load correctly, otherwise it may be damaged.

#### **Connection with No Load**

Be sure to insert a load when wiring. Make sure to connect a proper load to the E2A3 during operation, otherwise it may damage internal elements

Do not expose the product to flammable or explosive gases.

Do not disassemble, repair, or modify the product.

#### **Precautions for Correct Use**

#### Designing

**Power Reset Time** 

The Proximity Sensor is ready to operate within 100 ms after power is supplied. If separate power supplies are connected to the Proximity Sensor and load, be sure to supply power to the Proximity Sensor before supplying power to the load.

#### Effects of Surrounding Metal

When mounting the E2A3 within a metal panel, ensure that the clearances given in the following tables are maintained.

(Unit: mm)

	Dimension	M8		M12	
Model	Material of surrounding metal	Ferrous metal	Non- ferrous metal	Ferrous metal	Non- ferrous metal
	I	0.5 (*)	2 (*)	2 (*)	1 (*)
	m	9		18	
E2A3 Shielded	d	24		36	
	D	0.5	2	2	1
	n	24		36	

(Unit: mm)

	Dimension	М	18	M30	
Model	Material of surrounding metal	Ferrous metal	Non- ferrous metal	Ferrous metal	Non- ferrous metal
	I	4 (*)	2.5 (*)	6 (*)	4 (*)
	m	33		60	
E2A3 Shielded	d	54		90	
55.404	D	4	2.5	6	4
	n	54		90	

<sup>\*</sup> Using the nuts provided with the E2A3 allows mounting in the way shown below.

#### Power OFF

The Proximity Sensor may output a pulse signal when it is turned OFF. Therefore, it is recommended that the load be turned OFF before turning OFF the Proximity Sensor.

#### **Power Supply Transformer**

When using a DC power supply, make sure that the DC power supply has an insulated transformer. Do not use a DC power supply with an auto-transformer.

#### Mutual Interference

When installing two or more Sensors face-to-face or side-by-side, ensure that the minimum distances given in the following table are maintained.

(Unit: mm)

Туре	Dimension	М8	M12	M18	M30
E2A3	Α	25	35	70	110
Shielded	В	20	25	45	70

#### Wiring

**High-tension Lines** 

Wiring through Metal Conduit:

If there is a power or high-tension line near the cable of the Proximity Sensor, wire the cable through an independent metal conduit to prevent against Proximity Sensor damage or malfunctioning.

#### Cable Extension

The standard cable length is less than 200 m.

The tractive force is 50 N.

#### Mounting

The Proximity Sensor must not be subjected to excessive shock with a hammer when it is installed, otherwise the Proximity Sensor may be damaged or lose its water-resistance.

Do not tighten the nut with excessive force. A washer must be used with the nut

	Туре	Torque
M8 Stainless Steel Model		9 N⋅m
	Brass Model	
M12		20 N·m
M18		60 N⋅m
M30		150 N⋅m

#### Maintenance and Inspection

Periodically perform the following checks to ensure stable operation of the Proximity Sensor over a long period of time.

- Check for mounting position, dislocation, looseness, or distortion of the Proximity Sensor and sensing objects.
- 2. Check for loose wiring and connections, improper contacts, and line breakage.
- 3. Check for attachment or accumulation of metal powder or dust.
- Check for abnormal temperature conditions and other environmental conditions.
- Check for proper lighting of indicators (for models with a set indicator).

Never attempt to disassemble or repair the Sensor.

#### **Environment**

Water Resistivity

The Proximity Sensors are tested intensively on water resistance, but to ensure maximum performance and life expectancy, avoid immersion in water and provide protection from rain or snow.

#### Operating Environment

Store and operate the Proximity Sensor only within the given specifications.

#### Inrush Current

A load that has a large inrush current (e.g., a lamp or motor) will damage the Proximity Sensor. Connect the load to the Proximity Sensor through a relay.

#### <SUITABILITY FOR USE>

OMRON shall not be responsible for conformity with any standards, codes, or regulations that apply to the combination of the products in the customer's application or use of the products.

Take all necessary steps to determine the suitability of the product for the systems, machines, and equipment with which it will be used.

#### <CHANGE IN SPECIFICATIONS>

Product specifications and accessories may be changed at any time based on improvements and other reasons. Consult with your OMRON representative at any time to confirm actual specifications of purchased product.

INDUSTRIAL AUTOMATION

**INDUSTRIAL AUTOMATION** 

# **Warranties and Limitations of Liability**

#### ■ WARRANTY

OMRON's exclusive warranty is that the products are free from defects in materials and workmanship for a period of one year (or other period if specified) from date of sale by OMRON.

OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, REGARDING NON-INFRINGEMENT, MERCHANTABILITY, OR FITNESS FOR PARTICULAR PURPOSE OF THE PRODUCTS. ANY BUYER OR USER ACKNOWLEDGES THAT THE BUYER OR USER ALONE HAS DETERMINED THAT THE PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE. OMRON DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED.

#### **■ LIMITATIONS OF LIABILITY**

OMRON SHALL NOT BE RESPONSIBLE FOR SPECIAL, INDI-RECT, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED ON CONTRACT, WARRANTY, NEGLIGENCE, OR STRICT LIABILITY.

In no event shall responsibility of OMRON for any act exceed the individual price of the product on which liability is asserted.

IN NO EVENT SHALL OMRON BE RESPONSIBLE FOR WAR-RANTY, REPAIR, OR OTHER CLAIMS REGARDING THE PRODUCTS UNLESS OMRON'S ANALYSIS CONFIRMS THAT THE PRODUCTS WERE PROPERLY HANDLED, STORED, INSTALLED, AND MAINTAINED AND NOT SUBJECT TO CONTAMINATION, ABUSE, MISUSE, OR INAPPROPRIATE MODIFICATION OR REPAIR.

# **Application Considerations**

### **■ SUITABILITY FOR USE**

THE PRODUCTS CONTAINED IN THIS CATALOG ARE NOT SAFETY RATED. THEY ARE NOT DESIGNED OR RATED FOR ENSURING SAFETY OF PERSONS, AND SHOULD NOT BE RELIED UPON AS A SAFETY COMPONENT OR PROTECTIVE DEVICE FOR SUCH PURPOSES. Please refer to separate catalogs for OMRON's safety rated products.

OMRON shall not be responsible for conformity with any standards, codes, or regulations that apply to the combination of products in the customer's application or use of the product.

Take all necessary steps to determine the suitability of the product for the systems, machines, and equipment with which it will be used.

Know and observe all prohibitions of use applicable to this product.

NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON PRODUCT IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.
