

CÔNG TY CỔ PHẦN CÔNG NGHỆ HỢP LONG
RJ Series Slim Power Relays

Compact and rugged power relays. Large switching capacity.

- Compact housing only 12.7-mm wide.
Large contact rating
RJ1S (1-pole): 12A
RJ2S (2-pole): 8A
- Non-polarized LED indicator available. IDEC's unique light guide structure enables high visibility of coil status from any direction.
- Excellent electrical and mechanical life.
Electrical life: 200,000 operations (AC load)
Mechanical life: 30 million operations (AC coil)
- Environmentally friendly, RoHS directive compliant (EU directive 2002/95/EC). Contains no lead, cadmium, mercury, hexavalent chromium, PBB or PBDE).
- Diode type
Diode reverse withstand voltage: 1000V
- UL recognized, CSA certified, EN compliant.
- Lloyd Register type approved.

Applicable Standards	Mark	Certification Organization / File No.
UL508		UL recognized, File No. E55996
CSA C22.2 No. 14		CSA File No. LR35144
EN61810-1	 Reg.-Nr. B312	VDE No. 40015055
		EU Low Voltage Directive

Plug-in Terminal

Note: Maximum continuous applied voltage is the maximum voltage that can be applied on relay coils.

Specifications

Model	RJ1S			RJ2S									
Number of Poles	1-pole			2-pole									
Contact Configuration	SPDT			DPDT									
Contact Material	Silver-nickel alloy												
Degree of Protection	IP40												
Contact Resistance (initial value) (*1)	50 mΩ maximum												
Operate Time (*2)	15 ms maximum												
Release Time (*2)	10 ms maximum (with diode: 20 ms maximum)												
Dielectric Strength	Between contact and coil	5000V AC, 1 minute			5000V AC, 1 minute								
	Between contacts of the same pole	1000V AC, 1 minute			1000V AC, 1 minute								
	Between contacts of different poles	—			3000V AC, 1 minute								
Vibration Resistance	Operating extremes	10 to 55 Hz, amplitude 0.75 mm											
	Damage limits	10 to 55 Hz, amplitude 0.75 mm											
Shock Resistance	Operating extremes	NO contact: 200 m/s², NC contact: 100 m/s²											
	Damage limits	1000 m/s²											
Electrical Life (rated load)	AC load: 200,000 operations minimum (operation frequency 1800 operations per hour) DC load: 100,000 operations minimum (operation frequency 1800 operations per hour)												
Mechanical Life (no load)	AC coil: 30,000,000 operations minimum (operation frequency 18,000 operations per hour) DC coil: 50,000,000 operations minimum (operation frequency 18,000 operations per hour)												
Operating Temperature (*3)	-40 to +70°C (no freezing)												
Operating Humidity	5 to 85% RH (no condensation)												
Weight (approx.)	19g												

Note: Above values are initial values.

*1: Measured using 5V DC, 1A voltage drop method.

*2: Measured at the rated voltage (at 20°C), excluding contact bounce time.

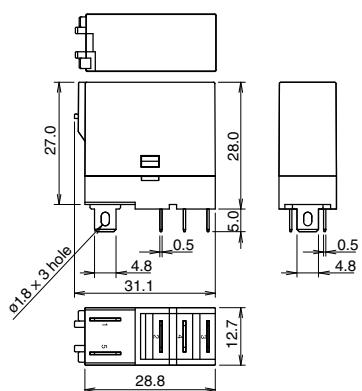

*3: 100% rated voltage.
